Latest projects

Hala Stulecia in Wrocław

Technological equipment for catering section in **Regional Centre of Business Tourism in Hala Stulecia in Wrocław** - a place to hold meetings, congresses, seminars, workshops and cultural events - is another significant realisation of our company.

IKEA Poland

The cooperation, which had started in 2008 and included deliveries of coldrooms, scullery furniture and refrigerated cabinets for **IKEA store in Poznań**, resulted in next implementations of our company for **IKEA stores in Gdańsk, Warsaw-Janki, Łódź, Katowice and Cracow**.

Hilton Hotels & Resorts

International hotel chain is another prestigious client present in our company's portfolio. GORT company was the author of projects, technology consultant and provider of catering equipment for **Hilton Garden Inn Cracow and Hilton Gdańsk** hotels.

Legia Stadium in Warsaw

One of the most functional sports facilities in Europe is also the first stadium in Poland with **professional catering services**. The venue, which meets the highest UEFA standards, has got a restaurant (open for general use) with modern technological resources, based on high quality devices.

STANDARD:

- 2 plastic coated slatted shelves GN1/1 for each chamber with door
- 2 sets of runners for each chamber with door

OPTIONS:

- additional execution standards
- top without night cover
- granite worktop

Investments

New laser cutting machine

One of our recent investments is the purchase of a modern laser cutting machine **TruLaser 3030**, produced by the renowned **German company TRUMPF**.

The main task of the machine is cutting. The laser beam is, however, capable of marking parts for identification purposes, adding center punch points to the material and processing film-coated sheets.

Advanced mechanical and laser technology along with GORT construction projects are just some of the reasons why **we do set the standard**.

We invite you to visit our stand

GORT in Milan

HOST trade fair in Milan is one of the most important events for hospitality industry in Europe.

This biennial fair is a major industry event that provides an overview of current trends and innovations in the HoReCa sector.

This year's edition of the fair will be held on 21-25 October.
