■ SOLUTIONS FOR PROFESSIONAL KITCHENS & FOH

■ SUSTAINABILITY / ENVIRONMENT

“Our company as an active participant in the area of sustainable development wants to achieve more with less resources. We commit ourselves to care for health and safety of our Employees, Consumers and Clients, as well as for protection of environment and quality of life wherever we are present.

We implement our strategy by developing sustainable, environmentally friendly products and by using natural resources in safe production processes, in close cooperation with all our partners in business and personal commitment and professionalism of our Employees.”

GORT Team

■ GORT FOR THE ENVIRONMENT:

- 🌿 The production cycle of our company: design, construction and disposal is geared to reduce waste and protect resources.
- 🌿 Our production facility is powered by energy from own photovoltaic farm.
- 🌿 We use environmentally friendly refrigerant for our professional refrigeration.
- 🌿 We design our products with long-term use in mind.
- 🌿 We use the principle of sustainable development.
- 🌿 We enlarge the machine park with energy-saving production machinery.
- 🌿 We choose components from reliable suppliers consciously.
- 🌿 We increase the amount of recyclable or reusable materials used in packaging and construction.

■ COMPANY

GORT Foodservice Equipment Manufacturer is a family company that has been providing efficient equipment and creative custom made solutions for professional kitchens since 2004.

All projects, both large and small, can easily be completed with help of wide range of **GORT** products.

Thanks to our long-term experience in cooperation with demanding international customers we are able to offer the best solutions for you and your business from one Polish factory located in central Europe.
